TikTok

<https://www.tiktok.com/@mariama.room?lang=en>

Contact rule for version 1

Do not add a public email address.

Do not add a contact form in version 1 unless truly needed.

For now, the website should function as a structured ecosystem hub rather than a contact-driven business site.

Main priority:

- clear structure
- coherent platform routing
- strong page logic

- elegant visual system

Social links are secondary, not the main routing logic of the website.

The main destinations are Spotify, Apple Music, YouTube, Insight Timer, and Amazon.
